A few glimpses of our projects

Welcome Message

The world is facing pressing problems that require immediate attention and action. These require the collective effort of individuals, organizations, and governments to address. NGOs and changemakers are the enablers of change at the grassroots level, but they are not well equipped, unaware of the latest changes, technological trends, and amendments pertaining to the development sector.

Here at **Impact Weaver**, we curate sustainable, impactful, and innovative tech-based solutions and collaborations to address social issues. Our team brings extensive experience across sectors and domains, and we are committed to making a real and lasting impact on the world. We use **innovation** and **cutting-edge technology** to develop solutions that help organizations achieve their goals and maximize returns on social investments.

Dibyajyoti Nath
Founder-CEO

About Our Company

Impact Weaver is a technology-based social enterprise that develops innovative solutions for non-profits, socially responsible businesses, and government to increase donations, reach new customers, increase transparency and accountability to citizens, and address other related issues. We help our clients to find the best ways to use technology to make a positive impact in the world, tailoring the solutions to their specific needs and providing guidance and support throughout the process. At Impact Weaver, purpose lies at the heart of our work, driven by a desire to bring the right balance of knowledge, passion and action.

Impact Weaver uses technology as a tool to enable the development and facilitate digital transformation.

ONE-STOP PLATFORM FOR SOCIAL IMPACT SOLUTIONS

Incubated by:

Our Mission

To empower NGOs, CSR organizations, and donors to seamlessly collaborate and manage operations with AI-driven tools, fostering transparency and accountability in the social sector.
